

Centre Management

Practices

Our centre facilities are owned by the Tamworth Baptist Church and operated by a limited liability company managed by a Board of Management. The members of the board are appointed by the church eldership. All Board members must be active members of the church.

The responsibility for the centre's vision and spiritual matters associated with the centre lies with the Board which will liaise closely with the church leadership.

The Board is responsible for matters of policy, the hiring of staff, and the financial and administrative arrangements that are implemented. It is responsible for licensing, budgeting, and fee determination, and carries responsibility for the overall operation of the centre.

The Board would welcome correspondence in regard to suggestions and matters of concern and will endeavour to respond to these in a prompt manner.

The Director is the Responsible Person and is therefore responsible for all day-to-day operations,

The centre office is the first point of call for information.
